The screenshot shows the 'Device Types' page in the IBM Watson IoT Platform. The page has a dark sidebar on the left with icons for navigation. The main content area has a header with 'Device Types' and a sub-header 'This table lists all device types that are defined. You can filter the list and search for the name and description. You can modify and configure existing device types and add new device types.' Below this is a search bar and a table with the following data:

Name	Description	Number of Devices	Class ID	Date Added
Iotsensors		1	Device	28 Sep 2022 11:36

At the bottom of the table, it says 'Items per page 10 | 1-1 of 1 item'. Below the table, there is a status bar that says '0 Simulations running'.
